September 2008

rosemary

oregano

kale

radicchio

cabbage

lettuce

**CENTERPIECE OF
THE MONTH**

greens to envy

No need to rummage around the house for table decorations—you can make a striking centerpiece just by reaching into your veggie crisper! Inspired by the produce stands at their local farmers' market, lifestyle experts **Michele Adams** and **Gia Russo**, known as the **MiGi Girls**, casually tuck kale, rosemary and oregano between heads of leafy cabbage, lettuce and radicchio. Try your own combinations to match your mood or menu. And when your guests are done feasting their eyes, disassemble it into a big tossed salad for next night's dinner.
