MiGi: MiGi is a lifestyle company that focuses on making the most out of everyday life to accessibly create a comfortable, inviting and warm home that embraces one's personal style. A perfect marriage of whimsy and sophistication, we are currently mad for MiGi's latest collections for the nursery, Alphabet and Blossom. Alphabet's classic animal ABCs motif is bright with polka dots, while Blossom's Asian-inspired bird and tree prints are sweet without being saccharine.
